## JANUARY 21, 2009 PHONE-CONFERENCE STARTING AT 3:00pm EASTERN

### AGENDA

The objective of this meeting is to review and discuss the specimen production drawings and determine the schedule for the casting of the specimens. The following are several key topics to be discussed during the meeting:

- Review and Discuss Specimen Production Drawings
- Determine Preliminary Schedule for Casting Specimens
- Discuss Material Needs to Cast Specimens
  - Materials Donated by Manufacturers
    - PT Ducts (Essve Tech, Inc.)
    - Transition Duct Pieces (Ecco Manufacturing)
    - Lenton Interlok Splice Sleeves (ERICO International Corp)
    - Lenton Standard A2 Couplers (ERICO International Corp)
  - ASTM A706 Steel
  - Plastic Sleeves at Panel-to-Panel Joint
  - Dayton Superior Inserts
    - Will Require Slates at Open Surface During Casting
  - Concrete Mix Design

This project is funded by the Charles Pankow Foundation and the Precast/Prestressed Concrete Institute. Any opinions, findings, conclusions, and/or recommendations expressed in this material are those of the researchers and do not necessarily represent the views of the sponsors.
